Portfolio: <https://hetal-portfolio.herokuapp.com>

SUMMARY

Motivated Full Stack Developer with Web, Interactive, Realistic Design and Programming knowledge to produce ideal and easy to understand Web applications, with good communication skills.

TECHNICAL SKILLS

Frameworks & Library: React, Node, Express, jQuery, Bootstrap.

Web Technologies: JavaScript, AJAX, JSON, HTML5, CSS3, XML, XHTML.

Database: MongoDB, MYSQL, SQL Server.

Version Control: Git

CMS: WordPress, Dreamweaver.

IDE: Visual Studio Code, Sublime Text, Notepad++, Brackets.

Web Servers: HTTP Web Server, Apache Tomcat

Methodologies: Agile, Waterfall

PROJECTS

React – Knodeyacode <https://react-knodeyacode.herokuapp.com/> **Full Stack Developer**

Link on GitHub: <https://github.com/HET1905/knodeyacode>

React - Knodeyacode is an interactive learning website for students to hone their skills in React, Node, Express, MongoDB.

- Achieved Drag and Drop functionality of React components using various inbuilt functions and methods of React.
- Used component's state to catch the dragged and dropped components value.
- Progress Bar React component is used to achieve a dynamically changing progress bar.
- **Technologies :** React, Node, Express, MongoDB, HTML5, CSS3, Bootstrap

KnodeYourCode | <https://knodthecode.herokuapp.com/>

Full Stack Developer

Link on GitHub: <https://github.com/HET1905/knodeTheCode>

Knode Your Code is an interactive project in Node, MySQL, Sequelize, Sequelize-CLI.

- Assigned the functionality to achieve drag and drop of elements on different pages, and successfully completed that using jQuery UI.
- Used the browser local storage to pass the values between different files.
- Used arrays and objects to store data and perform complex query operations.
- **Technologies:** Node, MySQL, Sequelize, jQuery, jQuery UI, JavaScript, HTML5, CSS3, Bootstrap

Notify | <https://het1905.github.io/Notify/>

Full Stack Developer

Link on GitHub: <https://github.com/HET1905/Notify>

Notify is a website whose functionality is like Spotify Music website.

- Used four different Api's to get the data. MusixMatch Api, Dizzer Api, Bandsintown API and Napster API.
- Used jQuery Ajax call to make call to API based on the parameter passed from user input.
- Dynamically generated elements to place the JSON data using jQuery and JavaScript append them to DOM.
- **Technologies:** HTML5, CSS3, JavaScript, jQuery, Ajax, Json, Bootstrap, Wow.js

Google Book Search Game | <https://google-serach-book.herokuapp.com/>

Full Stack Developer

Link on GitHub: <https://github.com/HET1905/GoogleBookSearch>

Google Book Search is an application in React to search your favorite book and save that book for later reference.

- The application is built using React, Node, Express, MongoDB
- **Axios call to Google Book API** is used to get books detail.
- Created React components for book list and book saved that render using **react-router-dom**.
- **GET** and **POST** requests are handled using **express js**.
- **Technologies:** React, Node, Express, MongoDB, HTML5, Css3

WORK EXPERIENCE:

Wells Fargo

Teller

Dec 2014 – Jun 2019

Worked for the highly reputed bank in the banking industry. Gradually I moved myself from a part-time position to a full-time position. Share my knowledge to use different computer software to help management to generate different reports. Known among staff for helping and kind nature and teach them different skills.

Shravan Education Trust, Gujarat, India

Aug 2011- Dec 2012

Junior Front-End Developer

Shravan Education Trust is an organization that administers different schools. Customized software programs to different schools. The IT department of this organization does the in-house development of their own applications and websites.

- Responsible for creating an efficient design and developing User Interaction screens using HTML4, CSS, jQuery, JavaScript, Php, MySQL.
- Used JavaScript and jQuery for custom client-side validation.
- Implemented Responsive Design by Media query and positioning for styling elements.
- Used Php and MySQL to display various information on Webpages.
- **Environment:** HTML4, CSS2, JavaScript, jQuery, Photoshop, Php, MySQL, Dreamweaver

Shravan Vidhyabhavan, Ankleshwar, Gujarat, India

Jun 2004- May 2011

Computer Instructor

Shravan Vidhyabhavan is a higher secondary school. As a Computer Instructor for 11th and 12th grade taught different technologies that are under the curriculum of the State Government such as Html, CSS, C, C++, Linux, FrontPage, Dreamweaver.

EDUCATION

- **Full Stack Web Developer Certification** | Rutgers University – Somerset, NJ
- **W3Cx Certified CSS Developer**
- **Higher Diploma in Software Engineering** | APTECH-(India)
- **Bachelor of Science in Chemistry** | M.S. University, Baroda, India
